

# Healthcare

L-R Composite panel, one-way vision, acrylic panels, dimensional lettering; Custom-printed wallpaper; Acrylic lightbox and printed window vinyl; Acrylic, printed vinyl, and dimensional lettering; LED dimensional lettering and wallpaper

Patients will often be visiting your facility at a time of high stress, so healthcare signage should be simple to read and communicate precisely and effectively. External signs provide crucial navigation for visitors so make sure your signage conveys all necessary identifying information and directions. Illuminated signage is an effective attention-grabber for assisting with wayfinding. Use custom-printed wallpaper graphics and vinyl to create visually calming spaces that feel less clinical. Let SIGNWAVE® help you Make Your Statement.

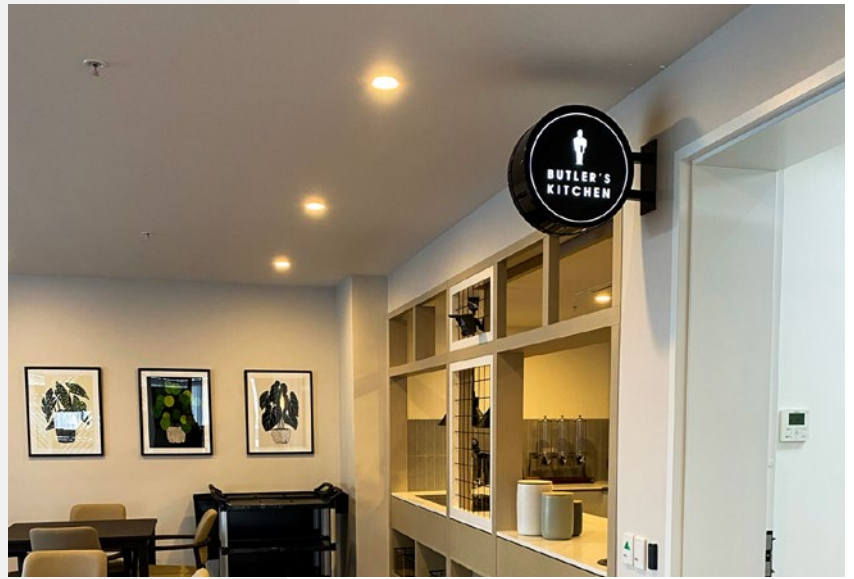

L-R Windflyer flags; Custom-printed wallpaper and dimensional lettering; Printed vinyl and lettering; Printed translucent vinyl; Illuminated dimensional sign; Acrylic directional sign

# Elegant simplicity conveys comfort and care

Timeless, deliberate design lends a welcome touch of class to this healthcare facility.
